### How to use the Smart Basket feature

Optimise your basket with Unite's Smart Basket feature, which checks if your order is available at a lower price, with faster delivery times or in fewer deliveries.

1. Sign in to your account and add the items you want to your basket.
2. When you're happy with the selected items, click on the basket icon. Now you can start optimising. The more items in the shopping basket, the more effective the optimisation.
3. Once you've made your selection, you're ready to proceed to checkout and to complete your order.
