

User management and approval workflow

As an admin accessing Unite through the web, you have control over how you manage your account and account users. In this section you'll learn how to manage users within your organisation, assign rights to users, and set up approval workflows.

How to manage users within your organisation

Sign in to your account and go to the tab '[User management](#)'.

The screenshot shows the 'User management' page in the Unite web application. At the top, there is a navigation bar with the Unite logo, a search bar, and account information (Germany, English, Alex Green, Basket € 0,00). Below the navigation bar, the 'Account' section is visible, with a customer number of 87654321. The 'User management' tab is selected, and the page title is 'User management'. A 'Hierarchy' link is present in the top right corner. The main content area contains a search bar and a list of users. Each user card displays the name, email address, and a 'Settings' link. One user, Daniel Favre, is marked as 'inactive' and has a 'Resend invitation' link. A 'Create new user' button is located on the left side of the user list. Below the user list, there are instructions on how to create a new user and a section for FAQs.

Create a new user

Click on 'Create new user' and enter the details on the next page. Click 'Save'. The user will receive an activation email and will be placed under you in the purchasing hierarchy.

Assign rights to users

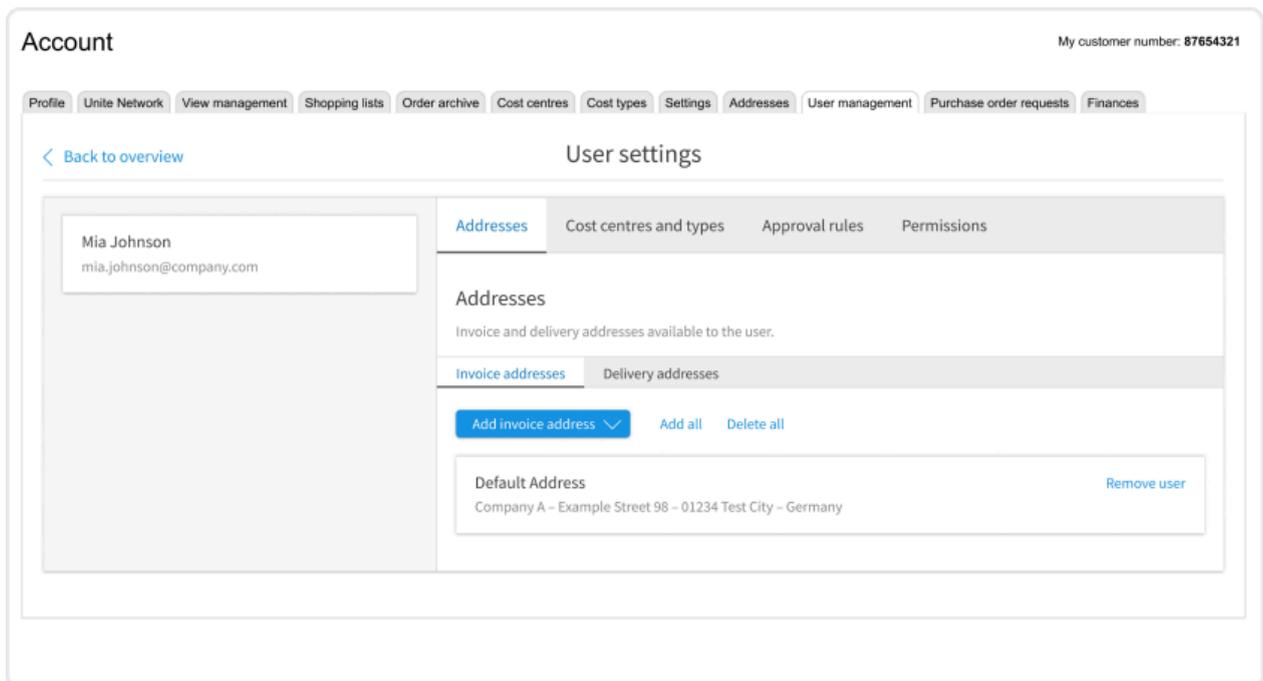

To assign rights to users, click on the three blue dots next to the user and select 'Settings'. Or simply go to the user and click on 'Settings' under their name and details.

From there you can assign rights, such as:

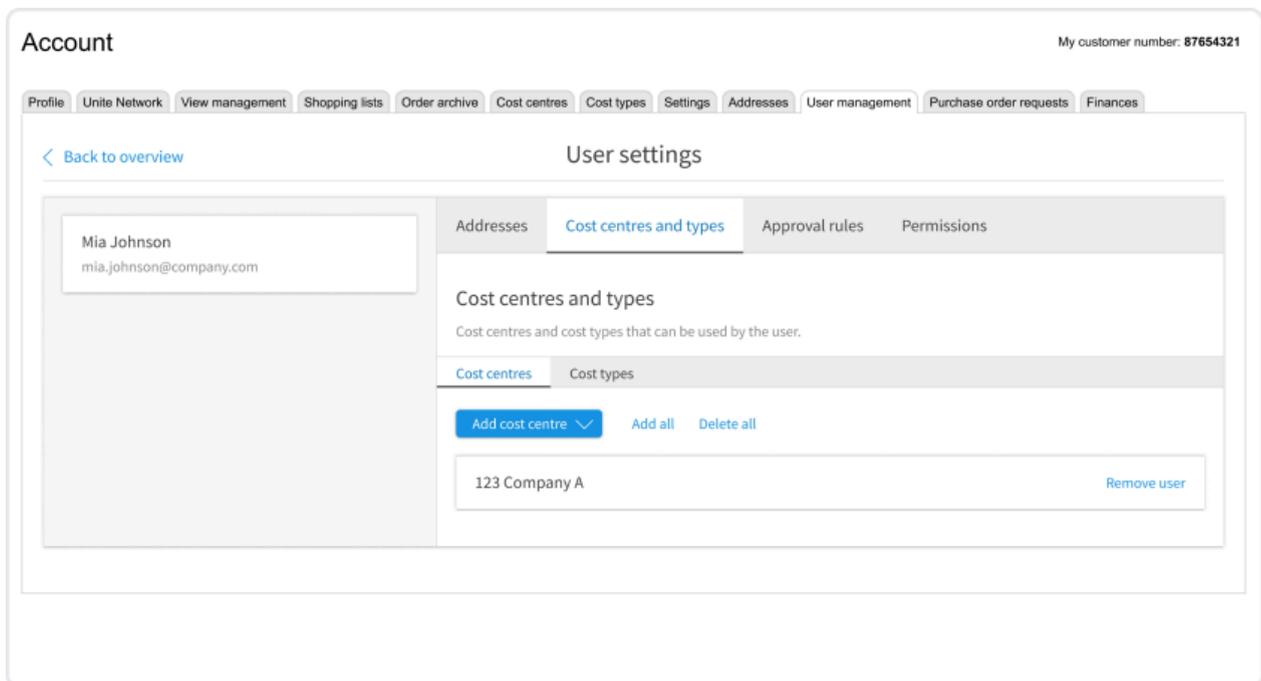

Assign invoice and delivery addresses

Go to '[Addresses](#)'. Then select the invoice and delivery addresses you want assigned to the user.

Assign cost centres and cost types

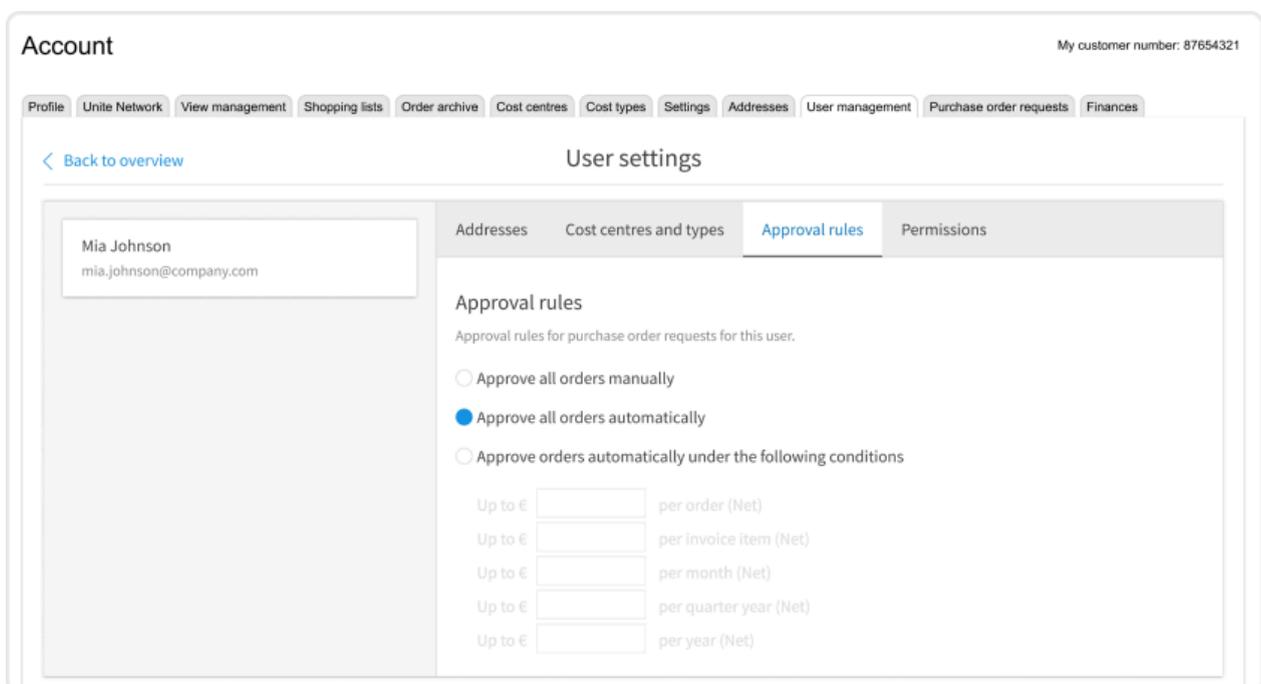

In 'Account assignment' you can define which cost centres and cost types the selected employee can use.

Assign budget and approval conditions

In 'Approval rules' you can choose if orders will be approved manually or automatically. You can also choose to approve orders automatically under the following conditions: include an amount up to a certain budget per order, per invoice item, per month, per quarter year or per year.

If you choose manual approval or if your budget is exceeded, the next highest user in your hierarchy receives the order request by email to approve or reject.

Assign permissions

In 'Permissions' you can select additional rights for each user. Here you can authorise a user to create a delivery address, manage cost centres, manage cost types, add users, book goods receipt, access data of all orders in order history reports, and access service fee data in order history reports.

Permissions

The user is authorised to:

- create delivery addresses
- manage cost centres
- manage cost types
- add users
- book good receipt centrally
- access order data in order history reports
- access service fee data in order history reports

How to manage purchasing hierarchies

Go to '[User Management](#)' and click on 'Hierarchy' in the top right corner.

Now drag and drop the user to the desired position or click on the user and select a new approver. Users who were placed in the purchasing hierarchy where a user has been deleted are automatically assigned to the next highest user position.

nt and manage them. You can assign delivery addresses, invoice addresses as well as cost centres and il approval rules as well as specify the product ranges the users can order from. Please make sure that no have left your company).

How to set up approval workflows

How to assign budget and approval conditions

The options you have under 'Approval rules' are described [in the section above](#).

How to manage purchase order requests

Approve purchase requests: Go to 'Purchase order requests' where purchase orders are listed that need your approval. Click on 'Edit' to make changes, 'Reject' to remove the order, and 'Approve' to approve it. You can also add comments below each order when rejecting. The comment will be shown in the order archive in the area 'Rejected purchase order requests' and in an email informing your requester.

How to set up substitutes in your absence

In case of illness or extended leave, you can add a representative who can approve order requests on your behalf. To learn how to set this up, [go to the profile and account management page](#).
