

Shipping and delivery

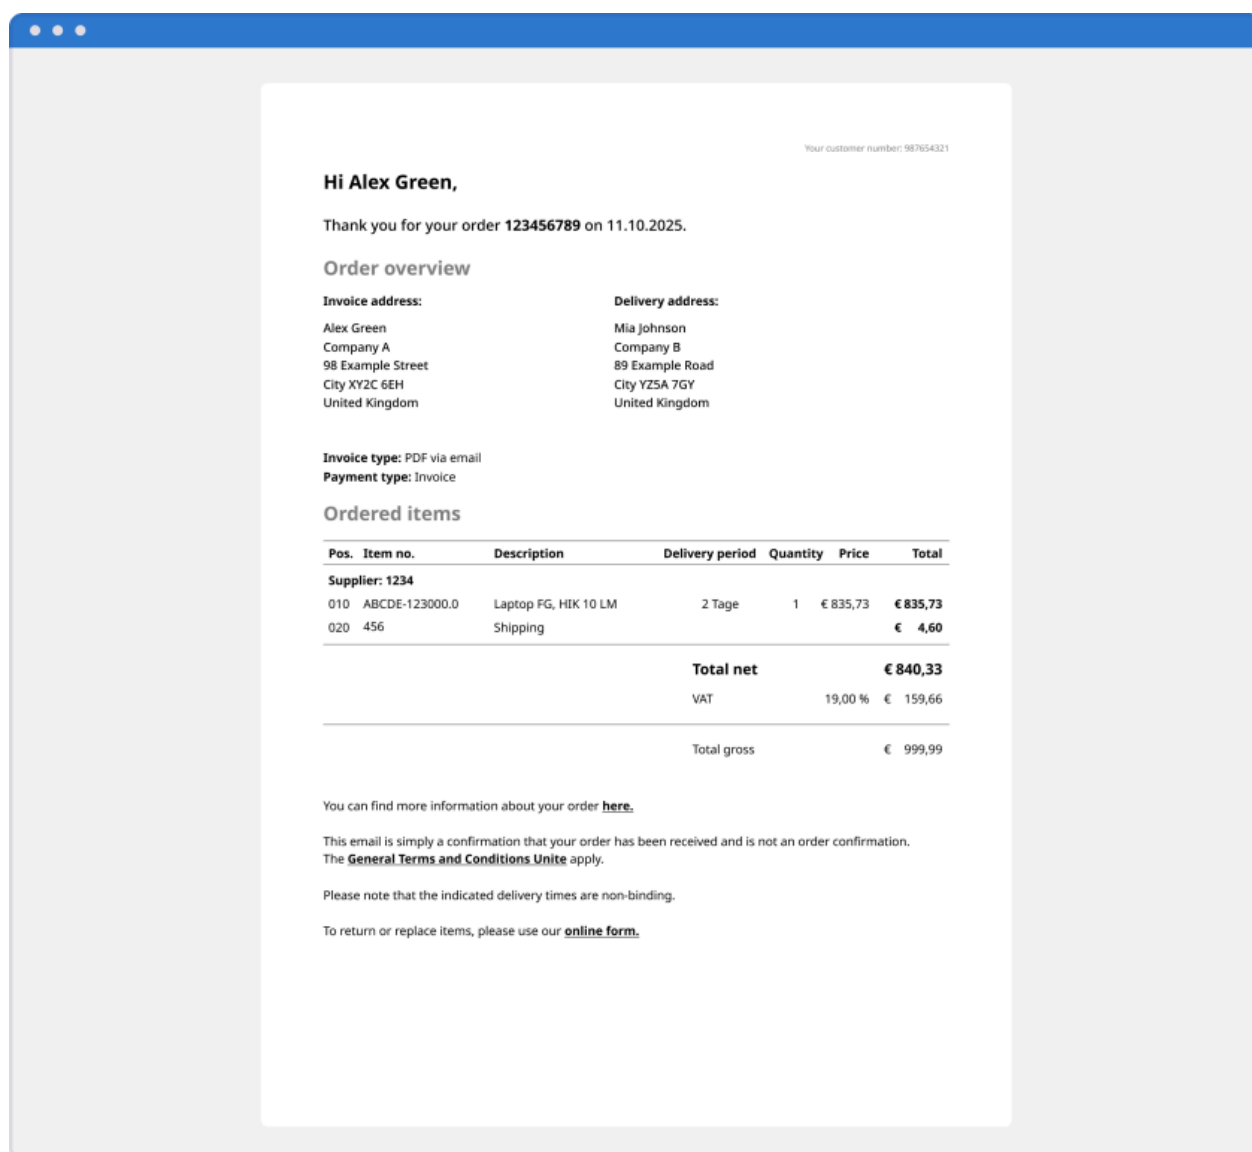

In this article you'll learn how Unite's shipping process works, including delivery times, delivery addresses, and shipping costs. We also provide answers to frequently asked questions.

How the shipping process works

Order receipt confirmation and shipping confirmation

After your order is received, we'll send you an order receipt email with your Unite order number. We'll then transfer your order to the relevant suppliers. If provided by the supplier, a further email will follow containing the estimated delivery date for each item. It may also contain tracking information, if available.

If your order includes items from multiple suppliers, shipping costs may be calculated separately for each one.

Shipping cost splitting

Your company may have set up shipping cost splitting. In this case, you won't see the shipping costs as a separate item. Instead, they're already included in the item prices.

If you're an administrator and want to set up shipping cost splitting, please contact your Unite representative or [get in touch with the Sales Team](#).
