General instructions

- Order and reference numbers must **not contain any line breaks**.
- The header data of the table (such as line, item number and quantity) must always be shown **as headings in documents** to maintain consistency.
- **Synonyms and abbreviations** are allowed for all words in the document. For example, 'dispatch notification' can also be abbreviated to 'Disp. Notif.'.
- Assign a sequential number range to your delivery notes and ensure that **each dispatch notification number is unique** and never duplicated.
- If a delivery date changes, please send us an **updated order confirmation** as an order confirmation change to the email address below. Please note that changed delivery dates must not be communicated in the dispatch notification.
