Product detail page

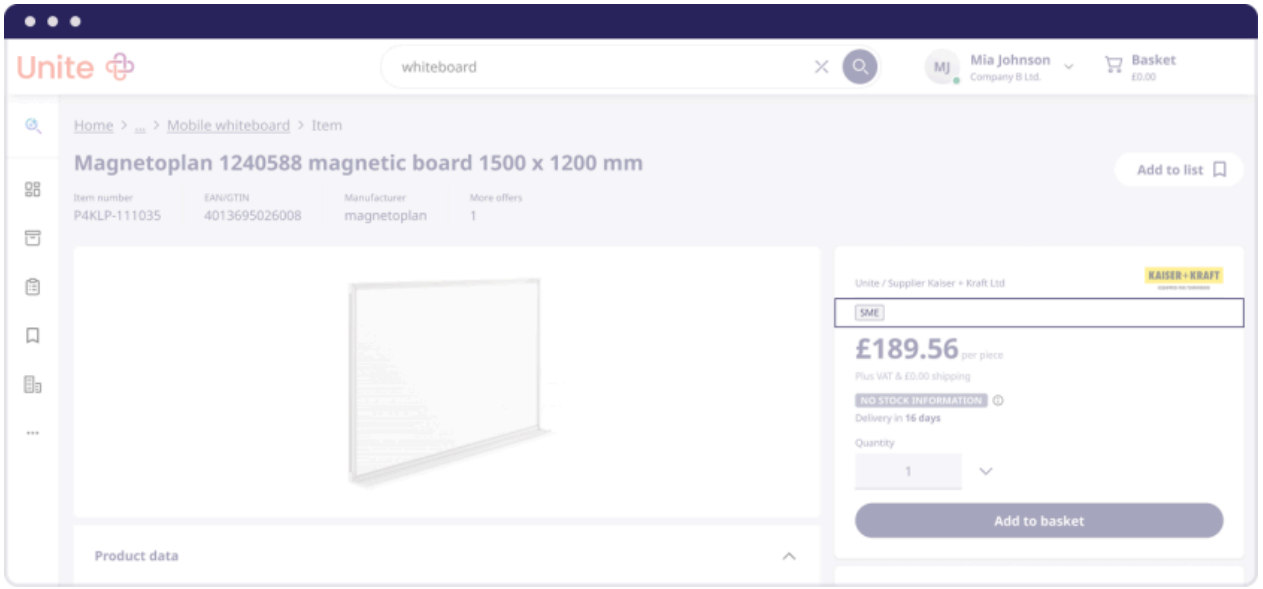

Each item on Unite is described on a product detail page that usually includes information such as product number, manufacturer name, manufacturer number, EAN, images, product features, and product data sheets, as well as conditions like delivery time and available stock.

In this article you'll learn how to find the best offers, compare offers, check stock levels and shipping costs, and review return policies on the product detail page.

Overview of the product detail page

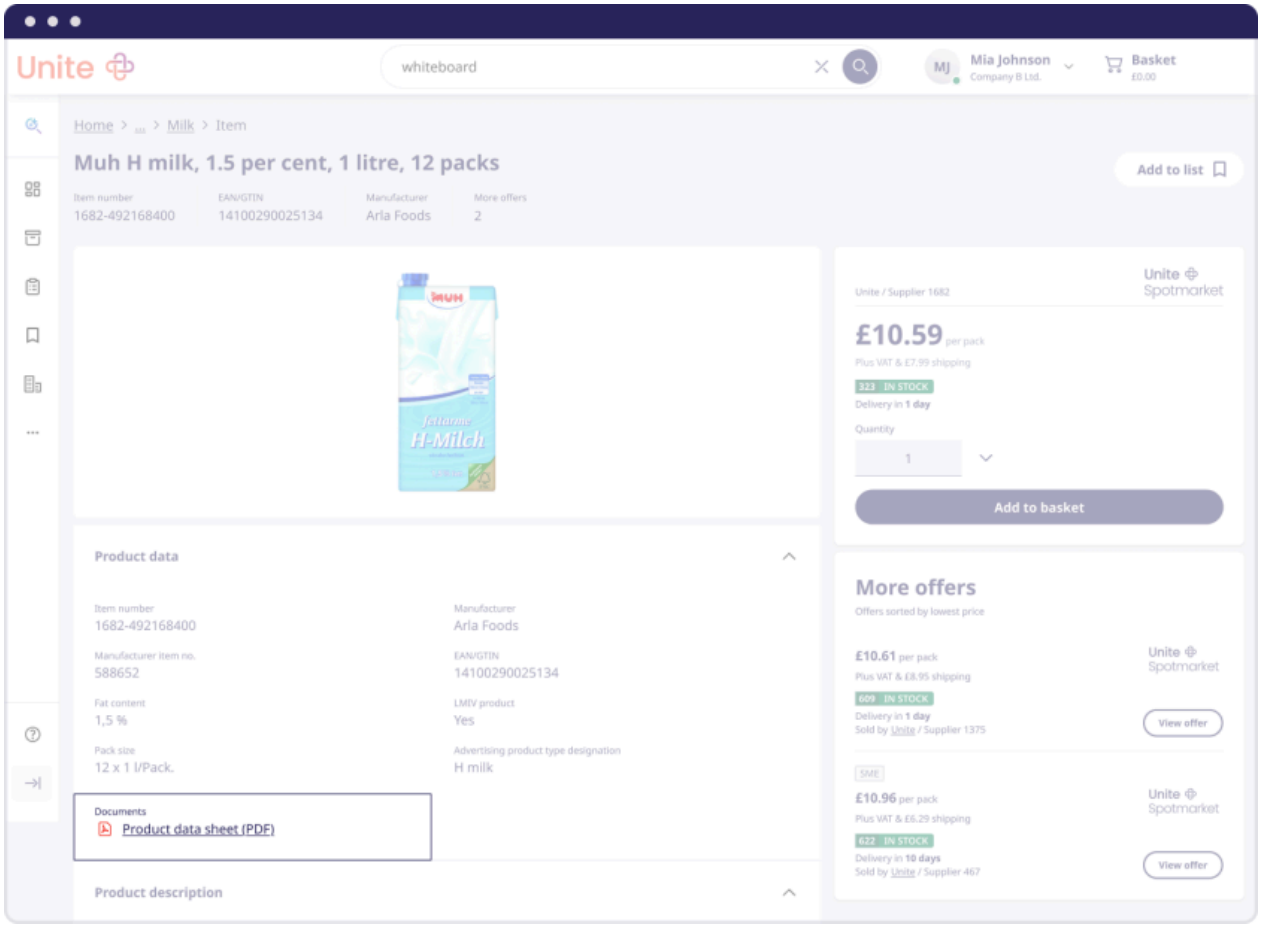

Click on the item you're interested in buying to open its product detail page. Depending on the product, you'll find details about the manufacturer, images, EAN/GTIN, product features, specifications, other technical information, and an SME badge, if applicable.

On the product detail page, you'll see the SME badge only on offers where the supplier has been identified as an SME. Read more about how to use the SME filter and view the SME badge.

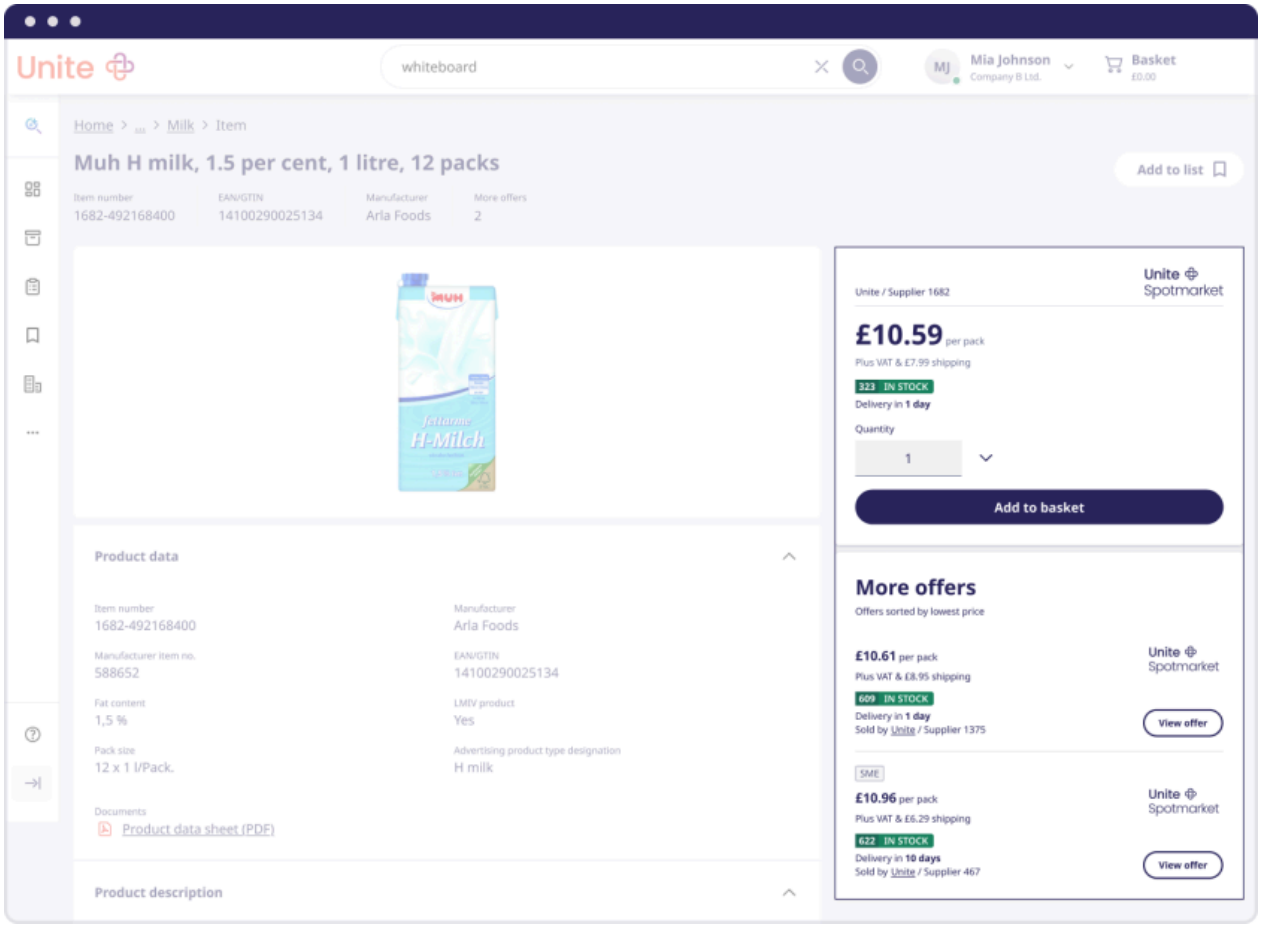

Product and safety data sheets

For some products, product data sheets and safety data sheets are available as PDF downloads on the product detail page. You'll find these under 'Product data'.

How to find the best offers

In the offers section, you can see the item's terms from different suppliers. Compare prices, delivery times, and other conditions to choose the best option for your needs.

The SME badge helps you find products with at least one available offer from a supplier classified by Unite as a small or medium-sized enterprise (SME).

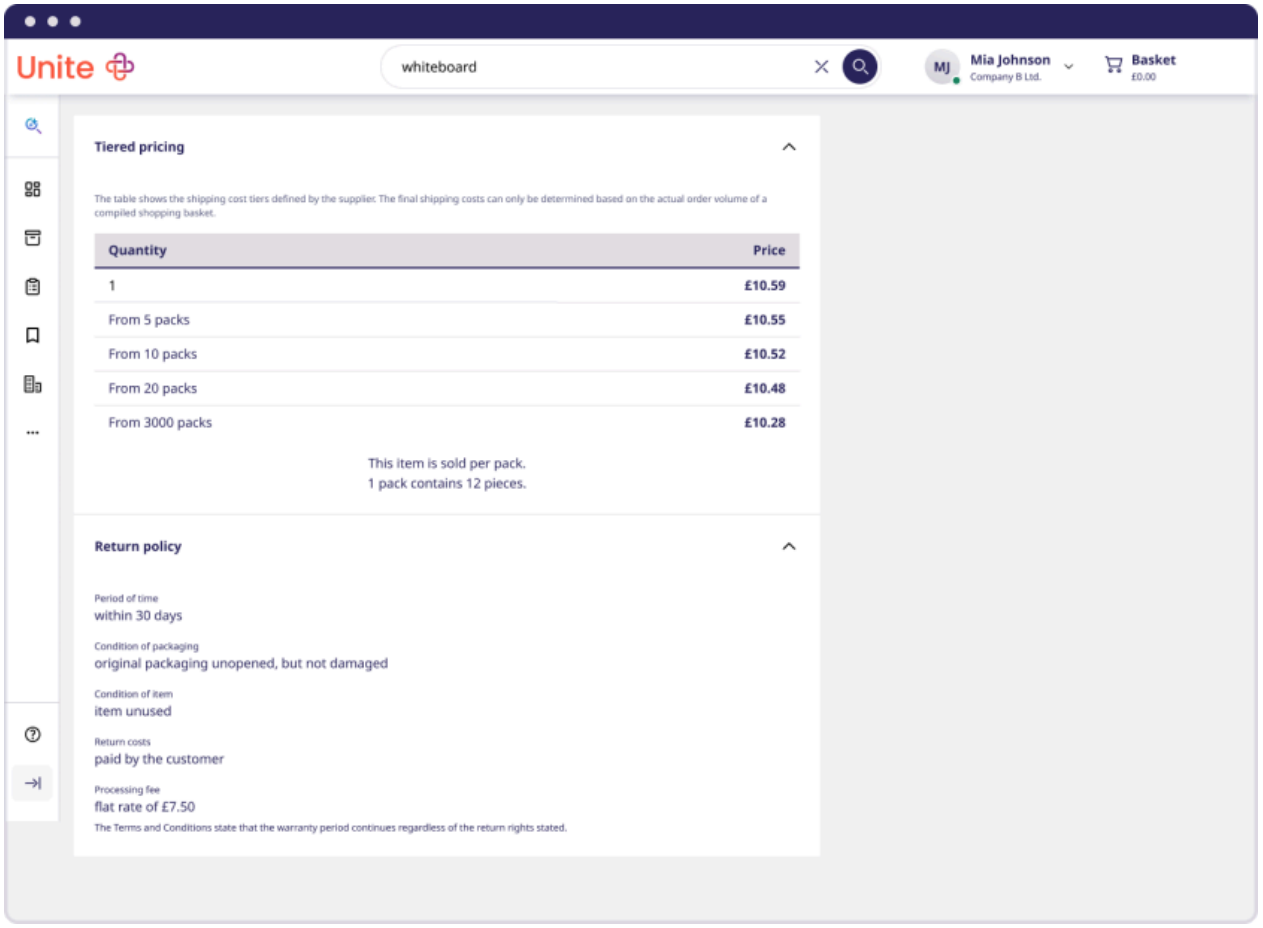

Adding an item to your basket

Once you've selected the item with your preferred terms, click on 'Add to basket'.

Read more about how to optimise your shopping basket with Unite's Smart Basket feature.

Viewing tiered pricing and return policies

Below the product data, you'll find additional information about the selected offer, such as tiered pricing (for larger quantities) and the return policy.
